ENERGY EFFICIENT

SunTek® window films can significantly improve energy savings* by reducing heat gain and helping eliminate hot spots. In fact, professionally installed SunTek® window films can help prevent up to 84% of the sun's energy from altering the internal environment of a home or office building.

ENVIRONMENTALLY FRIENDLY

All SunTek® products are environmentally friendly. SunTek® Window Films also supports environmental causes through volunteerism as well as employee and corporate donations. To learn more about our environmental efforts and for complete product information, visit our website at suntekfilms.com.

*The amount of savings will differ based on window film used and the size, construction, and geographic location of the home/building.
