

ROLLER SHADE OPERATIONS SYSTEMS

Order by number or letter code

1. CM – Standard Benthin Chain Mechanism

With Spring loaded adjustable idler

Best value and quality. Available in 5 colors

2. RC – Rollease style clutch

Required on all aluminum fascia or cassette top treatments

2 colors available – black and vanilla

All hanging chains are supplied and installed with new federally required chain tensioners (6-1-24)

3. S – Spring Control

With spring loaded adjustable idler

Internal European designed trouble-free ball bearing operation

4. RW – Ratchet Chain Wand

Meets child safety design

No exposed bead chain. Pull wand repeatedly to raise or lower shade.

Best used on shorter height shades

5 colors, 5 lengths – 24", 36", 48", 60"

Specify color and length

5. WM – Wand Battery Motors

Hanging wand has up, down and stop control and charging port

No remote control needed, charger required

2 colors – black or white, 3 wand lengths – 24", 39", 54"

Specify color and length

6. C-1, C-2, C-3 – Celtic Battery Powered Motors

Economical motor option

3 motors with 3 different lifting capacity

Remote and charger required

7. ST30B, ST40B – Somfy Li-ion Battery Motors

2 lifting size capacities

No wiring, ultra quiet

Remote and charger required

All motors #5-6-7 are Lithium-Ion rechargeable batteries. Batteries and motors are inside the roller tube. Motors should be charged 4-5 hours about once a year depending on shade size and usage. **INTERIOR USE ONLY** Motors #6-7 are also available with solar recharging panel. Extension charging wires available for elevated shades. Use remote control or free app for smart phones or tablet usage.

8. ST40E, ST50E – Somfy 110V Electric Motors

Plug in or hard wire motor with hand held or wall switch control

Interior or exterior usage

Designed for large commercial or multi band shades

SEE MOTOR SECTION IN SHADE PRICE BOOK FOR MOTOR PRICING OPTIONS AND SIZE LIMITS

ALL MOTORS REQUIRE TOP AND BOTTOM LIMIT SETTINGS ON THE JOB SITE. INSTRUCTIONS ARE INCLUDED
