VLT - Visible Light Transmission    TSER - Total Solar Energy Rejection  
 VLR - Visible Light Reflectance    UV - Ultraviolet Protection

The solar performance data reported for SunTek® automotive window films was captured using the National Fenestration Rating Council's (NFRC) standard guidelines for window film solar performance measurement as measured on single pane, 1/4 inch (6mm), clear glass. Reported values are taken from representative product samples and are subject to normal manufacturing variances. Actual performance will vary based on a number of factors, including glass type and properties.

- All-metal nichrome construction
- Interior appearance that is attractive and neutral
- Reflective exterior appearance that creates a “mirrored” look
- Outstanding heat rejection, glare reduction and UV protection
- Manufacturer’s lifetime limited warranty\* with protection against film fading
