The range of quiet and ULTRA quiet motors.

Sonesse® 30, Sonesse® 40, Sonesse® 50 | Sonesse® ULTRA 50

Designed for
comfort

Designed for **success**

Sonesse®

a range of quiet motors for interior blinds and shades

Somfy® designed for **silence**

Silence brings comfort and well-being.

As the world leader, Somfy is committed to providing innovation that fulfills user expectations in residential and commercial buildings. With more than 150 million motors sold, Somfy continues to improve the sound quality of its motors to provide powerfully smooth and silent movement.

The **Sonesse® range** and "Designed for Silence" label ensure a superior acoustic comfort for even the most demanding interior installations. Somfy has set a new market standard for ultra-quiet performance.

Master sound quality

From design to integration, Somfy's objective is to provide high quality acoustic performance that is superior and sustainable.

Armed with advanced research & development tools, Somfy's global network of highly skilled engineers analyzed sound levels. Their research led to the innovation of absorbing noise and vibration inside the motor while considering the constraints of integration without loss of acoustic performance.

Somfy
DESIGNED FOR
SILENCE

Choose the Somfy
"Designed for Silence"
label

- Choose a motor that guarantees an industry leading level of acoustic comfort.
 - Offer a quiet solution for motorized shades every time.
 - Conquer new interior applications with added value.
-

Sonesse®

a new standard for quiet performance

Sonesse® designed for you

Offer quiet, customized, value-added interior window coverings that set you apart from the competition and help you gain new business.

- Partner with industry leading Somfy Experts to ensure that your quiet motorized products offer the very best performance.
- The Sonesse® motor is so easy to integrate that you optimize productivity.

Somfy®: a long-term professional partnership

Somfy is committed to building long-term partnerships to ensure that you benefit from the very latest advances in acoustic performance for interior motorized solutions. In order to help you find the best solutions to meet the challenge of silence, we are creating a network of partners and experts that can maximize the noise reduction benefits of the Sonesse® range.

These partnerships ensure the acoustic quality of your products remain at the cutting edge of the market.

A specific accessories range

Make silence the new standard.

The brake, rotor and gear box are all specially designed to absorb noise. The Sonesse® range includes specific silence accessories to create an offer that provides maximum acoustic comfort from design to installation.

End cap and wheel for cylindrical tubes developed to avoid plays.

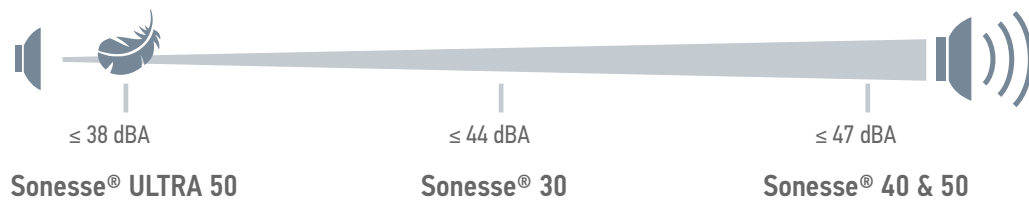

Power of Silence in AC and DC

The Sonesse® range of motors are rated according to their quietness. The volume scale below designates the motor's level of sound output.

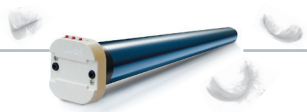

Somfy® reliability

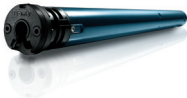

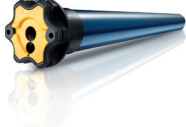

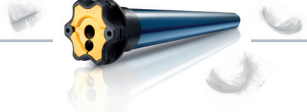

Sonesse® motors and accessories comply with international safety standards. All Somfy products are tested during production. Somfy guarantees its products for 5 years.
